

New Additions for the Week 20 October - TOP STORIES #137

Here are the Vendors for the week, and for a full list of Vendors already transacting with us on the Marketplace, they [can be found here](#)

AvePoint is a public company specialising in cloud management, data security, governance, and resilience solutions targeting modern workplaces, especially those adopting SaaS technologies like Microsoft 365, Google Workspace, and Salesforce.

Its focus is on data protection, governance, secure collaboration, and lifecycle management, with a strong emphasis on AI-driven security for the agentic workplace.

Key Products and Services

- **AvePoint Confidence Platform:** A comprehensive solution combining proactive security, unified governance, and built-in resilience with centralised controls, designed for the AI-driven workplace.
- **Cloud Governance Client:** Management tools for Microsoft 365 that enable access control, lifecycle management, and compliance reporting.
- **Backup Solutions:** AvePoint provides rapid backup and recovery options for Microsoft 365 environments, which are designed to minimise data loss and enable swift restoration in case of attacks like ransomware.
- **Migration Tools:** Automated frameworks for migrating content and workflows to cloud environments such as SharePoint Online and Microsoft 365.
- **Compliance and Risk Management:** Specialised services aimed at ensuring regulatory compliance across cloud estates, with governance tools to support business-led data stewardship.

AvePoint Review

AvePoint won the Security Awards "[Best solution for 1000+ users](#)" and scores exceptionally well with Gartner. [You can read more here](#)

BitTitan is a leading provider of cloud migration solutions, best known for its MigrationWiz software as a service (SaaS) tool. MigrationWiz enables organisations to move mailboxes, documents, public folders, user accounts, and workloads from nearly any source system to destinations like Microsoft 365 and Google Workspace with minimal disruption or downtime. It is particularly favoured for its ease of use, scalability, and automated migration features, making it suitable for both small businesses and large enterprises undertaking complex migrations.

BitTitan supports secure migrations at scale and complies with regulatory standards, such as HIPAA, FERPA, CJIS, and CSA CCM.

Products and Features

- **MigrationWiz:** Automates migrations for email, files, collaboration platforms, and shared drives, supporting a wide range of cloud ecosystems, including Microsoft and Google.
- **User Migration Bundle:** Provides tools for full-service migration—mailboxes, documents, archives, and Outlook configuration under a single license.
- **Specialised Migration Offerings:** Solutions for HIPAA-compliant migrations, public folder migration, and tenant-to-tenant migrations.

BitTitan Review

BitTitan receives generally positive reviews on Gartner Peer Insights, particularly for its MigrationWiz and MSPComplete products, which have an average rating of 4.7/5 stars from over 350 verified customer reviews. Users highlight the products' effectiveness in simplifying migrations, with some noting they save costs compared to using outside consulting firms.
